

WHY TRUAUDIO?

WHY USE TRUAUDIO?

We pride ourselves on providing industry leading products that are superior in acoustical performance and design build, all while striving to be the easiest company to do business with.

WHAT SETS OUR PRODUCTS APART?

We offer an extensive line of products for indoor, outdoor, residential and commercial applications. Partnering with TruAudio means you will have a solution for any application; that sounds amazing, and prices very competitively.

WHY IS THE SOUND QUALITY TOP OF THE LINE?

All acoustic engineering is handled in-house. Each of our speakers is designed from the ground up to have acoustical superiority in whatever environment it's designed for. Our goal and focus on all of our products is providing the most accurate representation of what the artist intended you to hear.

HOW THE PRODUCTS ARE BUILT TO LAST?

All of our products are built to withstand the test of time. With indoor speakers carrying a limited lifetime warranty, and outdoor and powered products featuring a five year warranty, each product is manufactured with state-of-the-art processing and quality control procedures allowing us to offer such warranties. Our outdoor products are also engineered to exceed an IP-66 certification and are fully UV protected.

WHY IS THE SYSTEM USER FRIENDLY?

Our systems are designed to be installed by contractors. Once installed, we recommend and provide a number of music streaming devices that provide step-by-step video instructions on not only how to set up the system, but how to interface with it on a daily basis.

IS IT EASY TO INSTALL?

Yes! All of the products TruAudio offers are very easy to install. To make sure that is the case, we have a full library of installation literature, a video library, and product one sheets that contractors can leverage during the installation process.

WHY HOMEOWNERS LOVE IT

Our systems are loved by all because of how easy they are to use, great they sound, and how reasonable they are priced. When partnered with our free system design service, we guarantee TruAudio products will provide a rich emotion-evoking listening experience for either soft background music, or when it's time to party.
